

#CHECKYOURFACTS

Verifacts provide
**2 TYPES OF
REFERENCE
CHECKS**
which safeguard
your organisation
from frauds.

REFERENCE INFORMATION CHECK

A short interview is not sufficient to determine the true nature and trustworthiness of a candidate. Seeing the real picture requires a more in depth approach.

We conduct checks to help your organizations gain an additional level of information on the job applicant, beyond what is listed on their resume. The insight is provided by contacting academic or professional references provided by the candidate or otherwise and relevant information is acquired via email or through a telephonic conversation.

TYPE	VERBAL	WRITTEN	STAMP
WHAT	Verification is carried out verbally through a telephonic conversation or details are taken during a personal visit from the applicant's education institute. Calls logs are maintained as a supporting and photographs of the institute in case of a physical visit.	Verification is either obtained on Email from the official Email ID of the College/University or procured on a letter head dully stamped and signed by the institute.	An education document is dully stamped and signed by the college/University authorities confirming its genuineness.
WHEN	Verbal verification is done in case written is taking time and report is needed urgently for a decision to be taken on a candidate	Written ensures zero variation and therefore is processed to maintain compliance.	Stamp verification is a middle route of written and Verbal process and is processed when a client is compliant for a written check but needs it in a relatively lower TAT than a Written mode.
PRICE SEVERITY	***	****	*****
